

UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON 25, D. C.

Dear Mr. Dulles:

As you may have noted, the Atomic Energy Commission and the Department of Defense have planned a series of test shots to take place at the Nevada Test Site commencing about mid-February 1955.

It is my belief that it would be of interest to you to witness one of these experiments and should you desire to do so it would be a great pleasure for me to make the necessary arrangements.

There will be official transportation provided departing from the Military Air Transport Service Terminal, National Airport, Washington, D. C. Information is attached which should cover those items necessary for such plans as you may care to make.

Would you let me know if you care to go so that I can have arrangements made.

Sincerely yours,

Chairman
